Engineer Butler and Fireman John Adams both of Peru Ind seriously hurt but will recover

Two sections of train No 3—one coming from Detroit and the other from Toledo were consolidated in this city into a train of 11 cars making up the flyer for its journey to St Louis It consisted of a cobbination baggage and express combination baggage and smoker day coach emigrant coach three chair cars three sleepers and the private car of General Superintendent William Cotten Iron Mountain railway Having left this city one hour late the train was speeding westward at a high rate when at a point nine miles west the engine plunged through a culvert which had been undermined by the recent heavy rains

The embankment on both sides of the little stream dropped at a sharp degree a distance of 40 feet Owing to the momentum of the train the engine appeared to leap nearly across the abyss plunged into the soft earth on the opposite side and fell back to the bottom Engineer Butler and Fireman Adams were thrown from the cab but not seriously hurt The express car and the first chair car were telescoped The first chair car followed by two chair cars went down on the left side of the track and first sleeper pitched forward on the mass of debris Its windows and trucks were broken but none of the occupants were injured. The remaining cars also left their trucks but were not badly damaged

It was in the emigrant and day coaches that most of the deaths and injuries occurred heavy foliage lined the banks on both sides of the culvert the approach to which was over a reverse curve

There was absolutely no means by which the engine crew could see the impending danger In fact the engine ran out upon the culvert before the structure gave way The night was intensely dark For a few minutes after the fatal plunge and dreadful roar of crashing timbers a deathlike stillness prevailed which was only broken by the cries of the injured

Trainmen caught up their lanterns and rushed to the neighboring farm houses for assistance The farmers with their wives and children bearing torches hastened to the scene and all efforts were bent to giving first aid to the injured Telephone messages were dispatched to this city and every physician was hurriedly taken to a special train which carried them to the scene The injured were placed aboard the cars and brought to the general hospital in this city where everything possible was done to ameliorate their condition

Many operations were necessary the most notable of which was the one performed on John Williamson the news agent a lad of 14 years of age Both the boys arms both legs and the right shoulder blade were broken Under the surgeons knife the lad bore up wonderfully and possibly may recover

For a time after the rescuers reached the scene of the wreck little could be done in the way of recovering the dead Hundred of tons of twisted iron and broken timbers rested upon the car where the unfortunate emigrants were crushed

But by means of wrecking derricks the mass was gradually opened and by daylight nearly all of the dead had been removed to this city

St Louis Mo June 26—The official report of Division Superintendent F A Guild to President Ramsay of the Wabash system states that 13 Italian emigrants were killed three are supposed to be fatally injured 11 seriously and 31 slightly bruised and scratched Fifty one of the total number of injured and killed are passengers and seven are employes of the Wabash railroad One woman a passenger is missing

The accident was caused by a washout at the culvert

Superintendent Gould in describing the accident to the passenger train, said

I learn from a person living near Cass that two black clouds gathered and came in contact about over the place where No 3 was wrecked The culvert which was washed out was a stone box three feet six are under a 30 foot fill The water was about five feet above the opening of the culvert and about 200 feet wide causing the earth above to slide We have never observed high water at this point before Mr Danes thinks he will have a bridge over the opening in six hours after the road bed is clear of cars

The engine and five cars went down the bank but one sleeper and the private car of General Superintendent Cotter of the Iron Mountain road remained lying on the track and nobody in them was injured

Logansport Ind June 26—David Tucker and Ernest Zimmerman farmer boys were arrested at the scene of the wreck charged with robbing the dead and injured of money and valuables Two policemen were at the wreck But for their interposition the prisoners would have been roughly handled by an indignant crowd

DESOLATION AND DEATH

Hundreds Are Starving in the Storm Swept Region.

APPALLING WORK OF FLOOD

List of Dead Will Exceed One Hundred---Thrilling Stories of Rescues Are Told.

Bluefield W Va, June 26—A railroad operator has just received word from Pocahontas 12 miles west, that there has been a cloudburst and that water is three feet deep in the railroad yards and is washing property away

Bluefield W Va June 26—Another destructive storm visited the flood swept district tonight and while no loss of life is yet reported from this second visitation yet the damage to property has been great. The work done by the large force of men repairing the damage of last Saturday a flood has been destroyed in many places

Roanoke Va June 26—Word was received here tonight at a late hour confirming the report that there had been another heavy fall of rain in West Virginia coal fields The intelligence received here says another storm has been received that Pocahontas has been damaged more than last Saturday All railroad repairs have been abandoned

Cooper W Va June 26 A heavy rain tonight at the head of the Elkhorn has washed out the new work and is likely to delay traffic tomorrow The bridge on Mill creek west of Cooper is washed out

Tager W Va. June 26—Early this morning an Associated Press correspondent reached this point which is in the central part of the northern section of the scene of Saturday's flood Here Dry Fork enters Tug river The loss of life here is even greater than at first reported The correspondent reached here after riding and walking along the Tug river from Williamson, a distance of 60 miles being the first newspaper man to reach the Dry Fork section Beyond here for a distance of 30 miles the railroad track is almost completely washed away and telegraph wires are down and nothing definite is known regarding the loss of life and property through that region It is safe to say that 100 dead will not be far amiss. The inhabitants are desolate and hundreds are starving There is no way of conveying provisions along the Dry Fork of Tug river save on muleback. This afternoon in one drove 20 mules loaded with provisions made the start across the mountains to Bradshaw 50 miles away where it is said many families have had no food since Saturday The stories of eye witnesses of the flood are appalling The water came down Dry Fork as a mighty wave fully 20 feet high At the intersection of Tug river it met another huge volume and the noise caused by the crashing together of trees houses bridges and debris of all kinds could be heard for miles Here Tug river rose 30 feet in two hours Bridges which spanned the river were swept away as well as 20 or more two story buildings one of which was the postoffice Rages Slouis, a civil engineer living here says that when the mighty wave of water swept down Dry Fork huge pines in its path were snapped off as kindling wood He climbed a tree on a mountain side for safety and was compelled to sit in the branches four hours until the water had subsided

On a little island in the distance was located the saloon of Pink Stone and Walter Ransom Both of these men went to the roof of the building but it was swept away and torn to pieces in the mighty waves. Storm was drowned but Ransom was rescued

J W Kilness a lumberman residing near Cincinnati ran to the mountain side and saved himself He saw four men run to the Dry Fork bridge and when it was swept away and went to pieces all were drowned He did not know any of them No report has yet reached here from the extreme upper waters of Dry Fork, a settlement thickly inhabited by small farmers It is feared the loss of life has been great there

Among those drowned on Dry Fork was Tom C Beavers a lumberman who came here from Ohio and began operating a mill His entire plant was swept away Others known to be drowned are Mrs Frank Samuels and two children George Criger Mrs White wife of a merchant, and two colored men

Along Tug river today searching parties could be seen pulling bodies out of the drifts Many were bruised and mangled and decomposition made the stench almost unbearable

At Panther a large county bridge was swept away A number of cabins occupied by lumbermen and two large commissaries were also swept away One of the latter floated down the river like a steamboat and was not wrecked until turning a bend half a mile below Forty box cars were carried away from sidings hereabouts. The current was so swift that all the soil is washed from many small bottoms to bedrock. Even the graves of the long dead were robbed by the raging torrents

Near here last evening in a pile of drift was discovered a coffin It is supposed this came from the graveyard below Pekman which it is said was about half cut away by the tide leaving exposed many skeletons

Just below Welch a bridge was swept away with six people on the structure How many of these perished is not known From four miles east the report comes that the body of a man has been found in the forks of a tree now standing some distance from the water

Bluefield W Va June 26—Details of the flood's havoc continue to come in At Norwood a new iron bridge just completed is a total wreck A great pile of debris near the bridge was found and in it a miner's cabin in which was a colored child about three years old It had been imprisoned two days and was exhausted from thirst and hunger Its miraculous escape is due to the fact that this cabin was thrown on the already accumulated drift above the crest of the receding flood The little one's parents have not been found

Better conditions in the stricken district prevail today The relief train loaded with supplies and necessities has distributed its freight along the Elkhorn valley for 12 miles On the North Fork branch it will be necessary to transport supplies by mule train as wagons cannot reach that section and provisions are getting alarmingly scarce

The railroad repair force is working night and day and great progress is being made Much of the line is practically being rebuilt as even the grade has to be re established

No bodies have been recovered today One of the largest heaps of drift was set on fire last night by some unknown friend of the public health In this pile of debris it is estimated there were at least 25 dead bodies The heap is now a pile of smouldering ashes

LIST OF THE DEAD WILL EXCEED ONE HUNDRED

Williamson W Va June 26—There is no longer any doubt that the list of dead the result of the recent flood will exceed 100 Parties reached here this evening from the upper end of the flooded district, bringing the first authentic information received from the scene of disaster

The section visited by the flood was thickly settled but as the population consists chiefly of miners who were at work at the time the large majority of the dead are women and children and thrilling stories of rescue are told At Pekman a mother climbed a huge pillar of a railway trestle holding to her bride at her only child Her home was washed away but the mother and child were saved

Fifteen persons are said to have been drowned at Pekman At Keystone probably 20 persons perished In one instance persons fled to an island and climbed small trees only to be swept away 15 minutes later by the tide which was filled with debris of every kind

On Dry Fork the loss of life is great. Bodies are scattered all along the stream many of which will never be identified Seven saloons at Keystone were washed away four lives being lost in one of them

Dr Hatfield's home at this point was not washed away, as formerly reported and his family is safe At Brooke the loss of property is also severe but only three lives are said to have been lost there The region from Iaeger to Davy 43 miles is completely in ruins Hundreds of miles can be seen in heaps of terminged with human bodies

Near Davy a horse was found lodged in a drift and a human body dangling from the saddle the man's foot having hung in the stirrup A report has just reached that 15 bodies are lodged in a drift at Hatfield tunnel, 20 miles east of this city

Near Burke a man says his brother sinking in the flood and plunged in to rescue him Both were drowned

C F Clifford a train dispatcher for the Norfolk & Western, walked from Ennis to Davy and now has control of the telegraph lines at the latter point He says that on his journey he saw five dead bodies at Pekman seven at Keystone and fifteen scattered promiscuously along the shores. He pressed on through without stopping and those were on his direct line of travel He says this number may be largely increased It is believed that the loss of life along the little streams emptying into the Keystone has been great These streams have not yet been explored

Twenty barrels of whisky were caught in the river at Welch A report has reached here that most of the colored miners are living off there on a protracted spree and that street fights are numerous It is difficult for the authorities to handle the situation Much theft is reported in the devastated district Even clothing is being torn from dead bodies Most of the bodies being found along the Tug river have been washed from the Elkhorn river The loss of property by the flood on the Tug and Elkhorn rivers is now roughly estimated at from $5 000 000 to $6 000 000

JESSIE MORRISON CASE WAS GIVEN TO THE JURY

Kansas City June 26—A special to the Star from Eldorado Kan says This morning after nearly two days and a half of argument the case of Jessie Morrison charged with the murder on June 2d 1900 of Mrs Olin Castle her rival was given to the jury The state's argument was concluded at 10 o clock

County Attorney Reed is quoted as saying that in case of a hung jury at this (the second) trial of the prisoner the case may be given up by the state and Miss Morrison set free

Lawyers for the state profess confidence that a verdict of conviction will be returned speedily The attorneys for Miss Morrison do not claim to be able to make even a guess

After the jury had retired Miss Morrison accompanied by her aged father and her two sisters left the court room and went to the Morrison home where the prisoner has been permitted to stay during this trial The people in the court room started at the little women as she passed by and one or two friends spoke to her She gave little evidence of strain or suspense.

In his closing speech for the state Mr Lewis spoke of the relation between Olin Castle and Jessie Morrison referring to the letter over which the two men quarreled on June 22 last he said

"She is not a giddy girl She knows something of human experience and human proprieties She testified here that she was 28 years old when this murder occurred After she knew that Olin Castle was engaged to be married she wrote him six letters from Excelsior Springs. After she returned she wrote him several notes. Does not this look as though the woman were flaunting herself in his face? And she is no young and giddy girl The blush of the rose has gone from her cheek If she walked with outraged passion why did not she draw the steel across the throat of Olin Castle?

Castle who was standing near the jury listening winced and bit his lip

Why did Jessie Morrison wreak her vengeance and her passion on an innocent woman who had won the love of Olin Castle whom this woman loved?

At a late hour tonight the jury had not agreed upon a verdict and a hung jury is generally predicted

Judge Aikman allowed the jurors to eat supper at 6 o clock but sent them back to the jury room immediately thereafter

TERRIFIC STORM VISITED PITTSBURG

Pittsburg Pa—June 26—The storm which struck Pittsburg and vicinity this afternoon was short in duration but terrific in power and disastrous in effect The lightning and thunder was practically continuous for about 30 minutes the wind attaining a velocity of 30 miles an hour and there was a heavy rainfall In two minutes of time 15 of an inch of water fell which would represent three inches an hour The temperature fell 24 degrees within an hour One woman was killed instantly by lightning and several other persons may die from the same cause Numberless houses and churches were struck by lightning

In Homestead Mrs Alice Lester aged 24 was struck by lightning and instantly killed Miss Gray Jackson aged 19 of Homestead was struck and her recovery is doubtful

Richard Rucker also of Homestead was frightfully burned by the electrical fluid and will hardly recover

The waters rushed down the hills around Homestead and literally engulfed the town Beside the numerous houses wrecked four iron bridges of the Monongahela Street railway were washed out Dozens of washouts occurred between Pittsburg and Hazelwood and street car travel was suspended for over an hour

At South avenue the end of the suburban traction company's line a picnic party composed of 1,200 persons 700 of whom were children gathered in the dancing pavilion for shelter Lightning struck a tree within eight feet of the pavilion and set fire to the structure The picnickers were panic stricken Women fainted children screamed and even the men in the party gave way to their fright Fortunately the heavy rain extinguished the flames and though a large number of the party were more or less badly hurt in the panic none were seriously injured

A similar panic ensued at St Joseph's parochial school on Mount Oliver where commencement exercises were being held The hall was filled with children and their parents when lightning struck the building tearing a portion of the roof away Pandemonium reigned for a time but no fatalities resulted

DE LUR-SALUCES WAS FOUND GUILTY

Paris June 26—The Marquis de Lur Saluces was found guilty with extenuating circumstances and sentenced to five years' banishment

When the senate sitting as a high court of justice reassembled today continuing the trial of the Marquis de Lur Saluces who is charged with treason the public prosecutor M Perard resumed his speech which was interrupted yesterday by the adjournment of the court He dwelt at length on the participation of the marquis in the intrigues of the anti Republican leagues and demanded his punishment

The trial was concluded amid the general indifference of the spectators The marquis was voted guilty of conspiracy by a vote of 156 to 88 and he was sentenced to banishment by a vote of 72 to 2 He will leave Paris tonight.

After the speeches made by his counsel and before the verdict was rendered M Falliéres president of the court asked the marquis if he had anything to say to which he bitterly replied that proscription or imprisonment mattered little to him He added

I will always be able to say to my children Your father kept his honor unstained.

During the secret deliberation M Alcoin spoke strongly in favor of condemning the marquis These remarks led Senator de Launay to interrupt the speaker calling him down M Alcoin retorted with equally disagreeable words and as a result seconds were appointed with a view to a duel between M Aucoin and M de Launay This duel promises to be the only interesting development of the trial

GIFT BY MORGAN TO HARVARD MEDICAL SCHOOL

Cambridge Mass June 26—President Eliot announced at the Harvard alumni dinner tonight that J P Morgan had given more than $1 000 000 for the erection of three of five buildings planned for the Harvard Medical school in Boston

Some months ago President Eliot explains Messrs Henry and Frank Higginson took a tract of 20 acres of land paying $500 000 for it This they agreed to hold in trust for the university until means should be found to buy it from them when they would sell at cost price It was supposed that the carrying out of the plan would be a matter for the remote future Nevertheless the medical faculty through a committee consisting of Dr Henry P Bowditch and J Collins Warren proceeded to draw up plans and specifications for the buildings which they would like to have and could use next year if they had them The estimated cost was $2,000 000 Last Friday Dr Warren received a cable from Mr Morgan in which he said

Referring to our conversation and plans submitted I am prepared to erect the central buildings and two side pavilions as a memorial to Junius Spencer Morgan a native of Massachusetts and for many years a merchant of Boston You can announce this

President Eliot called attention to the phrase plans submitted which he said included specifications and said that these called for an outlay of more than $1 000 000 The new Morgan buildings on Huntington avenue in Boston will include a hospital

Coincidentally it was noted that more than 100 men took the M D degree this morning The commencement was rather quiet, in that the number of distinguished men present as guests was fewer than usual The double disappointment in the absence of President McKinley and Secretary Hay made Baron von Holleben the German ambassador the chief guest of honor

Otherwise the only prominent visitors from other countries of states were Vice President Roosevelt Wayne MacVeagh, who delivered the Phi Beta Kappa oration John Bellows of Gloucester Eng., a noted lexicographer and Jacobus Henricus van Hoff described by President Eliot in conferring a degree as the greatest living physical chemist Senator Hoar presided at the alumni dinner and he and others made extraordinary laudatory references to the president and secretary of state

THE STEAMER LUSITANIA

Is Ashore and a Total Wreck Near Cape Race.

PASSENGERS ARE ALL SAVED

Five Hundred People Had a Terrible Experience Rumor of Overturned Boat Unconfirmed.

Montreal June 26—A special to the Star from Cape Race says the steamer Lusitania is ashore at Zals cove 12 miles north of Cape Race and that the 500 passengers are all safe

The Lusitania was bound round Cape Race for Montreal with a large cargo and a shipload of passengers She mistook her course in a dense fog and went ashore near Renews 20 miles north of Cape Race before daybreak. The ship ran over a reef and hangs against a cliff The passengers who are mostly emigrants were panic stricken They stampeded and fought for the boats but were overcome by the officers and crew

The rougher element among the passengers used knives The women and children were first landed and the men followed The crew stood by the ship A heavy sea was running but at latest advices the Lusitania was holding her own It was thought likely however that she would prove a total wreck.

The disaster occurred miles from the nearest telegraph station and the details obtainable at this time are meager

Several steamers are fitting out here to go to the scene of the wreck. It is expected that the large cargo of the Lusitania will be salvaged

As this dispatch is being sent an unconfirmed report has reached here that a boatload of people from the Lusitania was upset and that 20 persons were drowned

The passengers of the Lusitania had a terrible experience The first knowledge which they had of the disaster was when, owing to the ship rasping over the rocks they were all hurled from their berths by the shock A scene of great excitement ensued Five hundred people were clamoring to escape while the crew tried to pacify them and launch the boats

The male passengers in their attempt to seize the boats trampled the women under foot and fought the crew with knives Some of the more cool headed of the passengers assisted the crew in the effort to get out the boats. One boat was upset and its occupants were immersed It is still supposed that some of these were drowned Another boat, having on board 20 persons is supposed to be adrift in the fog and this may have given rise to the report that 20 persons were drowned by the upsetting of a boat.

The women and children almost nude were pulled up the cliffs by the coast people

The unhappy passengers, after shivering for hours on the hilltop tramped over weary miles in their endeavor to reach the houses of the fishermen, where they are now sheltered

Previous to reaching the cliffs, the passengers passed two hours of terrible anxiety on the wreck.

As a furious rainstorm and heavy sea raged all night it is feared the ship will be a total wreck. The last reports received here said the steamer was breaking up that the foreholds were full of water and that her cargo was being salvaged

There is hope of saving the effects of the passengers as where possible, they were stowed above deck

It is expected that the rescued passengers will be brought here tonight

Still further reports received here show that the wreck of the Lusitania did not result in any loss of life All the passengers escaped although several of them were injured The missing boatload of passengers has been found The ship is badly damaged on the rocks

All sorts of rumors are current along the coast as to the details of the wreck. The entire coast population is repairing to the scene in the hope of salvaging the Lusitania's cargo. No direct statements from those who were on board as to what occurred on the wrecked Steamer have yet reached St John The steamer Glencoe, bringing the Lusitania's passengers is due here at midnight.

A ship messenger who brought the news of the wreck to St Johns says the passengers on board the Lusitania drew their knives to cut the boats' lashing and threatened the crew of the steamer when they thought the latter attempted to interfere with them in so doing

The last message to the agents of the Lusitania here says the vessel is hard and firm aground on the reef and a hopeless wreck Her engine room is full of holes and flooded Her forehold is also flooded The ship is listed heavily to port and the waves are washing in and out of her forward and aft holds. The after decks are under water A strong northeast breeze is tumbling up a heavy sea which will soon dismantle the ship

ANGRY MOB THREATENED TO LYNCH CONSIDINE

Seattle Wash June 26—When seen this morning in the county jail by a representative of the Associated Press John Considine who yesterday shot and killed ex Chief of Police Meredith would say little regarding the murder and the causes that led to it

My attorneys wrote Meredith that he must retract the statement he had made which reflected on my character or I would sue for libel It was that letter which made him attack me.

The nucleus of a mob was formed last night among Meredith's friends and wild talk was made of attacking the jail A committee waited upon the newspapers and asked for support but were warned that the law must take its course and the sheriff was put on his guard Thereafter the movement dwindled away and came to nothing

Considine has engaged ex Congressman James Hamilton Lewis to act with his attorneys.

The Times today publishes the text of the letter sent Meredith which was the undoubted cause of Meredith's attack upon Considine The charges made by Meredith were first published in the Times upon Meredith's authority and demand was made by Considine and his attorneys upon the publishers of the paper for an apology and retraction. This was four days before the murder Col A J Blethen editor and publisher of the Times absolutely refused to retract.

An examination of Meredith's skull shows that the blows delivered by Tom Considine would have produced death in a short time even if he had not been shot by John Considine Such is the result of the post mortem examination held today

ASSAILANT OF WOMAN WAS SHOT IN DENVER

Special to the Gazette

Denver June 26. George F Griffin who resides at 2053 Walnut street attempted to assault Mrs K Riddol of the same neighborhood at Thirty first and Platte street this afternoon and was himself shot by W W Morgan a colored hunter who happened to be near by Griffin attacked the woman near the Thirty first street bridge and her screams attracted the attention of Charles Whiffen a special policeman and also Mr Morgan They hurried to the woman's assistance and when the assailant saw them coming he ran Both pursuers called on him to halt and when he failed to stop Morgan dropped on one knee and taking good aim fired The charge went true to the mark and struck Griffin in the head inflicting a painful though not necessarily fatal wound The noise of the affair drew a large crowd and a report was soon spread that the Capitol hill thug was captured. Only the timely arrival of the police saved the man from being roughly handled He was however landed safely in the city jail Griffin was until a year ago an employe of the C and S railway but he lost his position and since has gone from bad to worse until last week, when his wife left him for drinking Since then he has been living with his brother

TO TEST COLORADO INSPECTION LAW

Denver, June 26.—Ed. H. Reed of the Flato Commission Co., Omaha, was arrested here today on a complaint charging him with bringing into Colorado 27 cars of cattle from below the 36th parallel in Texas after having refused to submit to an inspection by a Colorado inspector and declining to pay an inspection fee as is provided by law, he maintaining that his federal bill of health was sufficient to carry his cattle into any state in the union.

Mr. Reed was taken before the criminal court where he was defended by R. H. Talbot, who represented the National Live Stock association. The prisoner was convicted and sentenced to six months in jail. Judge Hallett of the United States district court will hear an appeal in connection with an appeal for his release.

It is the intention of the National association to carry the case to the supreme court of the United States with a view of having the law providing for an inspection fee on interstate shipments tested.

FAMILY FOOD

Crisp, Toothsome and Requires No Cooking

A little boy down in N. C. asked his mother to write an account of how Grape Nuts Food had helped their family.

She says Grape Nuts was first brought to her attention on a visit to Charlotte where she visited the mayor of that city who was using the Food by the advice of his physician. She says: "They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well than when I returned home I began using Grape Nuts in the family regularly.

My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape Nuts soaked in a little warm milk.

"Well it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible and on Grape Nuts.

Some time ago a number of the family were stricken with la grippe at the same time and during the worst stages we could not relish anything in the shape of food but Grape Nuts and oranges, everything else nauseated us.

"We all appreciate what your famous food has done for our family."

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the California Fig Syrup Co. only. THE NEWS OF CRIPPLE CREEK

Forger Got $100 on Charles J Moore's Name

POLICE ARRESTED A BURGLAR

Recovered Quantities of Stolen Goods—Runaway Caused Excitement—Mass Meeting Called

Cripple Creek Bureau
Colorado Springs Gazette.

Cripple Creek, June [illegible]—Charles J. Moore, the well known mining expert, was the victim of a neat piece of forgery today. Mr. Moore took the morning train for Colorado Springs and left his office in charge of the bookkeeper, H. A. Couch. The bookkeeper is alleged to have made out a check payable to himself and bearing a very poor imitation of Mr. Moore's signature. The check was for $100. Mr. Moore has an account at the [illegible] bank and Couch presented the check there for payment. The cashier told the bookkeeper that the signature to the check was not Mr. Moore's. Couch was positive that the signature was all right and invited the cashier to call up Mr. Moore's office by telephone and find out for himself. The cashier did so and was told by the person in Mr. Moore's office to pay the check. Couch was paid $100 and then left the bank. Later an investigation was made and it was found that Couch had disappeared and that the signature was a forgery. It is supposed that Couch had a confederate at the other end of the line when the bank called up the office. The bank put the case in the hands of the sheriff who at once instituted a search for Couch, but without success.

William Hillman, a piano player, was arrested tonight suspected of being Bookkeeper Couch's confederate.

The police department of the city [illegible] in the person of L. C. Thompson, a colored man who is accused of having committed a number of burglaries in the city during the past fortnight. Thompson was arrested by Chief of Police Burns late this afternoon in his cabin near Third street on the alley between Eaton and Carr avenues. His cabin was a "fence" for stolen goods and the police removed two express wagon loads of goods from it to the city hall where it awaits identification of owners.

The stolen articles consist of knives, revolvers, mens' clothing, underwear, cigars, liquors, etc. The revolvers and cutlery were stolen from the Teller County Mining Supply company's place of business on Second street and the cigars and liquors from Dorcey's saloon and Buchner's saloon. The former saloon was robbed on Monday night and the latter saloon early this morning. M. Buchner is the proprietor of the Sideboard saloon on Bennett avenue and Thompson's cabin was directly back of it. The burglars robbed the place about 2 o'clock this morning. They gained entrance by forcing open the rear transom and then unlocking the door. They secured about $10 in cash, 150 cigars and several bottles of liquor.

Thompson was drunk and under the bed in the cabin when the officers effected an entrance and placed him under arrest. He was taken to jail and when sober he will be given a chance to tell his story. He is an ex-convict, having served a term at Canon City. The goods recovered by the police are worth about $[illegible].

The Lincoln Republican club held a largely attended meeting in the Collins hotel tonight. Rousing speeches were made by the different members of the club and arrangements were talked over for the holding of several big public meetings between now and the fall campaign. Several new members signed the membership roll tonight and in the halls and room was at a premium. The next meeting of the club will be held one week from tonight.

A series of runaways on Bennett avenue this morning kept excitement to a fever heat but did no particular damage except to the wagons mixed up in the affair. The runaways were started by Pitney's milk wagon, the horse attached to the wagon starting to run away in Old Town near the Midland tracks at 10 a. m.

The horse became frightened at a passing switch engine and started to run. The rattling of milk cans made him run faster and on Carr avenue he [illegible] large platform in front of Leibheart's commission house. Here the milk wagon separated from the front wheels and shafts and the horse continued on its journey, carrying the shafts and front wheels. The horse then turned into Bennett avenue at Fifth street and a short distance from the turn ran into Ulrich's produce wagon and soon the street was covered with vegetables, fruits and berries.

A boy was on the seat and was thrown violently to the ground receiving serious injuries. The overturning of Ulrich's wagon frightened his two horses and [illegible] it was a mad race between the three horses all going toward [illegible] street. The Ulrich horses tore the front wheels of the wagon away from the box and these wheels got caught in the wagon of [illegible]

The [illegible] horses all [illegible] with fright going down the street. [illegible] and other horsemen [illegible] the street seeing the runaways [illegible] the animals in an endeavor to get out of the way. When [illegible] except the delivery boy on Teller & Hoskins grocery wagon. The young man jumped from the wagon when he saw he could not escape. His horse broke loose and ran into a [illegible] One of the horses ran into Welty's barn while the others continued up the street until caught.

The affair created plenty of excitement and it was a miracle that no one was injured by the running horses. A [illegible] hundred dollars will cover the damage.

The Transmississippi [illegible] committee have given notice of a mass meeting to be held at the Grand Opera house tomorrow night to arouse interest in the coming [illegible] in this city. It is expected that Senator T. M. Patterson, who has been a member of the congress since [illegible] and ex-Governor Alva Adams will be present to address the meeting. The [illegible] the congress promises to be very large [illegible] rates would be [illegible] Woods, James P. [illegible] and James [illegible] will be here, reported by the county commissioners and R. F. [illegible] Wood and [illegible] W. F. Meek, Durango, will be represented by Charles A. Johnson and F. [illegible] and J. G. [illegible] Judging from the large number enrolled at headquarters the congress will be the largest that has convened since [illegible]

James O'Neil [illegible] was arrested today charged with assaulting with intent to kill a woman on Myers avenue. He alleged that he had been robbed by the woman last night. This morning he nearly succeeded in killing her with a knife, stabbing her in the region of the heart. There were four wounds upon the woman and [illegible] stitches were required to close them. The woman is [illegible] she will live.

In the case of the city of Cripple Creek versus the Peoples Electric company in which the Gold Belt [illegible] claimed [illegible] company is in error, a decree was issued by the district court today to the effect that the defendant company's franchise is illegal as in so far as [illegible] was given the [illegible] temporary writ of injunction was [illegible] restraining the defendant company from digging in the streets or alleys of the city or from erecting poles or stringing wires.

The Pinnacle Consolidated Mining company commenced action in the district court today against J. A. Houlihan. The plaintiff company asks that the court issue a decree for a deed in its favor for that part of the Blue Bell [illegible] in conflict with the Florence [illegible]

J. A. [illegible] H. F. Oliver and S. T. [illegible] filed suit in the district court today against Ellen M. O'Loughlin to recover $[illegible] damages. The suit is the outcome of an alleged breach of contract on the part of the defendant relative to the leasing of the Edith T lode of the plaintiffs and the Pittsburg and California lodes of the defendant.

CANON CITY NEWS NOTES

Some New Evidence Found Favorable to C. B. Sikes

ASSESSMENT VERY COMPLETE

Body of Drowned Man Not Identified—Serious Runaway Accident—Strawberry Crop

Special to the Gazette.

Canon City, June 26.—Columbus B. Sikes, the young man whom many think has been unjustly convicted of the murder of his old time partner Smedhurst and whose case is now before the board of pardons, has been receiving much attention of late from the various papers in the state.

The ventilation of the matter in the press has brought to light the following additional facts. It will be remembered that the trial brought out the fact that the almost complete [illegible] of a man's body were found in a burnt haystack near the house of Samuel J. Couchman and [illegible] that these bones were supposed to be those of Smedhurst whom Sikes was supposed to have killed and burned. The friends of Sikes now claim that they have incontrovertible proof that the bones were not those of a human being, that the haystack did not burn down at the time it was supposed to have done so and that Smedhurst has been seen at the time of his alleged murder by three different persons.

Capt. F. F. Rockafellow leaves tomorrow for the big exposition at Buffalo where he will be met by his niece [illegible] who is attending school at Phillips academy, Andover, Mass. After seeing the exposition they will go to [illegible] Mich., where there will be a reunion of Captain Rockafellow's old regiment, the Sixth Michigan, one third of whom were killed or died of wounds received in battle. Captain Rockafellow was captain of company L. It will doubtless be a mutual pleasure for captain and men to meet again after so many years and renew old associations.

County Assessor Bridges is nearly through with his assessments but it will be the most complete ever made in Fremont county. A large number who, it is claimed, have escaped in the past will now be brought into line and the burden will thus rest more easily on all concerned.

The body of the man found drowned last week in the Arkansas river below [illegible] has not been identified as yet and yesterday was buried by Undertaker Wilson.

Mrs. O. Johnson met with a very serious accident a few days ago. While driving her buggy on Main street the horse started to run and threw her down, her clothing became entangled in the rig and she was dragged a considerable distance. The horse was soon stopped but Mrs. Johnson will be compelled to use crutches for a long time.

P. Sheldon, the manager of Captain Rockafellow's orchard, has already picked [illegible] of strawberries off of one third of an acre and will get enough more to bring the yield up to in the vicinity of $[illegible].

A small building of the C. C. and C. C. railway shops was destroyed by fire on Sunday night.

If you want Fig Bargains in shoes just wait until the Jones Cox Shoe Co. opens for business Friday morning.

SQUATTERS BEING DRIVEN FROM DORCHESTER PARK

The people of the Dorchester park district are rejoicing over the prompt action the mayor has taken in driving out the squatters. When the matter was brought to his attention Monday he at once ordered the police to clear the region and peace once more reigns in the suburbs.

THE NEW ARMY.

ON MONDAY next all of the volunteers who were enlisted for the war with Spain and the military operations in the Philippines will have been discharged with the possible exception of a single shipload of soldiers. By the same date the regular army will consist of 75,000 men the number fixed by the new army bill. Under the provisions of that measure the president had the authority in case of emergency to create the army to 100,000 men but owing to the collapse of the insurrection in the Philippines the additional soldiers will not be needed.

Of the new army the [illegible]—or between 40,000 and 50,000 men will be stationed in the Philippines. Their presence there will be as a precaution against further disturbance rather than as an active force to be used in military operations. It will be their duty to serve as a garrison for the islands to act as a police force in assistance of the civil authorities to protect the inhabitants of provinces friendly to the Americans from the attacks of bandits and irreconcilables and for a while at least to break up the bands of insurgents that still defy American authority.

Of the remaining part of the army about 7,000 men will be stationed in Hawaii and Puerto Rico and an equal number for the present in Cuba. This will leave for service in the United States and Alaska a number equal to that of the old army of 25,000 men. The larger portion of these will be needed for garrison duty in the seaboard forts while the remainder will be stationed at the various posts throughout the country as they were before the war with Spain.

The army of 75,000 men though larger than that which was maintained a few years ago is very small when the immense area and interests of this country are considered. It is sufficient merely for the barest military needs of the country and it is absurdly insufficient as a protection against foreign attack. Our experience in the war with Spain was conclusive that soldiers cannot be armed equipped trained and made ready for service under modern conditions in a few weeks. There can be no doubt that under present conditions the United States is running a grave risk for which we would pay most dearly in the event of foreign war.

As for the menace of imperialism which some have affected to see in the new army nothing could be more ridiculous. For each thousand of our population we are threatened with something less than one-third of a soldier in this country less than two-thirds of a soldier in the Philippines and one-twentieth of a soldier in Puerto Rico. We have used the word "threatened" but it is a wrong one. The army of the United States does not exist for the assault of our liberties but for their protection. There is no more patriotic body of men anywhere in the country than the officers and enlisted men of the United States army, and that organization may be trusted at all times to stand firm not only in defense of our country against foreign foes but also against all within our own lines who seek to destroy our free institutions and to overthrow our laws.

SENATOR JONES' NEW ISSUE.

SENATOR JONES of Arkansas is recorded as declaring that since the supreme court decision the question before the people is no longer, Does the Constitution follow the flag? but Ought the Constitution to follow the flag?

The question is one upon which the Republican party will not hesitate to assume the negative, and judging from the past attitude of the Democrats as well as from their traditional habit of taking the opposite side on every question it may be presumed that they propose to assume the affirmative.

The supreme court decided that the Constitution does not follow annexation by its own force but that congress has the right at its own discretion to extend the Constitution to annexed territories. Senator Jones' position is that the Constitution ought now to be so extended to Puerto Rico and the Philippines and he proposes that if his party is successful at the next congressional election it shall bring Puerto Rico and the Philippines into the union as organized territories.

One of the changes that this will involve will be an equality of tariff. An absolute free trade must be declared between the islands and the United States their goods must be admitted to this country free of duty and they can raise no revenue by tariff upon goods from the United States. More than that, Spanish goods must under the treaty be admitted to the Philippines for a period of 10 years on the same terms as our own and once within the Philippines these same goods may be forwarded to the United States without additional duty payments.

Another very important matter involved is that of rights of citizenship.—A citizen of a territory like Arizona or New Mexico is a citizen of the United States. He has a right to migrate to any part of the United States, and upon arrival in any state he may acquire residence after a brief period and be entitled to vote the same as though he were native born. If the Constitution is extended to Puerto Rico and to the Philippines as Senator Jones proposes to extend it, we shall be unable to place any restriction upon immigration from those islands if we desire to do so, and every native-born citizen of them will be entitled to full citizenship in any state of the union.

Some other good reasons why Puerto Rico and the Philippines should not be admitted into the union as territories are to be learned from our recent experience with Hawaii.

The Democrats cannot be so foolish as to imagine that this country is going to do anything that is so evidently against its own best interests as to extend the Constitution to these islands. What the Democrats are still trying to prove is that the Republican party made a great mistake in annexing them. They hoped that the supreme court would decide that we had made all these islanders citizens and now that the court has decided that we did not make a serious mistake Senator Jones says that we should go ahead and make the mistake anyhow.

The American people cannot be fooled in any such way as that and the Republicans would like nothing better than a campaign based upon the proposition that the Constitution ought to follow the flag immediately into Puerto Rico and the Philippines.

ADVERTISING THE QUARTO-CENTENNIAL.

THE ATTENDANCE at the Quarto-centennial celebration may be greatly increased if the people of this city will call the attention of their correspondents to the matter. The regular committees may be trusted to supply the usual amount of advertising matter, but aside from this letter writers and travelers should miss no opportunity to acquaint the people of other sections with the fact that on August 1, 2 and 3 at Colorado Springs there will be the biggest and best festival that has ever been held in the Rocky Mountain region.

SENATOR BURROW'S PLAN

SENATOR BURROWS of Michigan has a plan for avoiding the vacancies that sometimes exist in the United States senate through the failure of legislatures to agree upon a senator. It frequently happens that owing to a personal fight between two candidates or a factional difference in the majority party no one person receives a majority of the votes and in that case under the present law there is no method of filling the vacancy and the state must have only one senator or possibly none at all.

Senator Burrows' plan is that in such cases the governor of the state is to issue a call for a special election and the voters of the state are to decide upon the senator.

The plan is like that of the man who was buying flea powder. He was told to catch the flea tickle it till it opened its mouth and then to choke it by pouring the powder down its throat.

But why not kill the flea at once?

Zat is ze ozzer way.

Senator Burrows' plan is a good one but the "ozzer way" is better. The direct election of senators by popular vote will clear the state legislatures of a large amount of bribery and corruption. It will facilitate public business immensely and will be a benefit in many ways.

There is no need of adopting a roundabout remedy when a perfectly plain and straightforward one is readily available.

BETTER LATE THAN NEVER

COLORADO Springs welcomes the news that President McKinley may complete his western trip so unpleasantly interrupted next summer. Apparently what the president saw of the west gave him the desire to see more and the journey could be made most pleasurable and profitable.

If the journey were to be made next summer the president would have the opportunity to come to Colorado by one of the middle routes thence to the far northwest and return via one of the two northern railroads without passing over any railroads or visiting any cities reached in the former trip.

It is to be hoped that this plan will be carried out and every city on the line will give him as hearty a welcome as he would have received if the 1901 trip had been completed as planned.

GOOD WORK BY LESSEES

REPORTS from the Cripple Creek district show that the lessees operating in the Cripple Creek district are doing good work and meeting with splendid results.

This is nothing new. Lessees always have been to the front in Cripple Creek and have dared to step in where corporations feared to tread. The mining knowledge of a lessee is in four cases out of five much more practical than that of a corporation and they make good use of that knowledge with corresponding results.

The lessee has done much for Cripple Creek. He has made many discoveries which might yet be hidden had it not been for their efforts and brought into life the dormant interests of many a company. Instances of the valuable discoveries made are really too numerous to mention but it is quite safe to say that they have opened up more pay veins three to one than those who have been working for corporations.

Sometimes we do not hear much about the lessee just now he is fortunately conspicuous and judging by the many new ore bodies that are being opened up today that work had been progressing with the utmost vigor for over ten years in this wonderful gold camp.

But the same thing is being done in and around Leadville and that district is three times as old as our gold camp. The life of a mine may be estimated but mining camps seem to last forever. Cripple Creek and Leadville bear witness to this fact. They have been scratched over for years and years and wonderful mines have been developed. They are scratching yet and continue to make new discoveries these same discoveries being the forerunner of more big mines.

POOR CROPS IN EUROPE

IT APPEARS that Europe is again unfortunate in the matter of crops this year. Great Britain France Germany Austria and Italy have all suffered. Some nights have been frosty and the thermometer at Greenwich on Tuesday registered 36 degrees. There were similar temperatures in parts of France and Italy while snow was common in Austria and Hungary.

The weather has had the worst effect on the crops everywhere. It is stated that the wheat crop in France has been ruined and hence the importation of American wheat will be a record one. Two French firms alone are credited with having already ordered more than the entire importation from the United States in the year 1900.

The almost unbroken drought in England during the month has destroyed the hay crop and seriously checked others. The temperature rose slightly on Wednesday and there was some rain.

From Germany the reports are equally unfavorable and there is already a strong demand that restrictions against American imports intended to benefit German farmers shall be modified for the benefit of German consumers.

Conditions of this kind while they undoubtedly tend to promote the interests of American farmers do not tend towards international good will and harmony. As a result of crop failures in Europe we may expect to hear more than ever of Yankee insolence and unfair American competition.

FROM THE PRESS OF THE NATION.

Answer to Letters From Homeseekers

(Fort Morgan Times)

We think the following covers most questions asked us by people in the east who have heard of Morgan county and want to know all about it.

There are plenty of instances at hand of men who came to Morgan county with plenty of money bought land cattle or sheep and hogs worked [illegible] though they [illegible] a failure of it. Certainly there are others of this class who succeeded and have made for themselves a competence. There are also many instances of men who came here with no money to speak of but with willing hearts and strong arms who have prospered exceedingly. Slowly but surely by energy and perseverance their fences cover more land, their cattle, sheep and hogs have multiplied until now their owners suffer no wants they are unable to supply; they are the backbone of the community both financially and morally. The same door through which these fortune to people entered is still open to others. The opportunities are better, the results more dependable. There is cheap land still to be had. Will improved and cultivated farms can be had at a very reasonable price considering fertility and the profit from crops raised upon them. As another inducement to home seekers mention may be made of the splendid railroad facilities enjoyed; products may be shipped east or west to market in almost every hour if desired. Our educational institutions are [illegible] the youthful mind; a [illegible] from the Fort Morgan high school is a thing worth striving for and when obtained is a pass to any public university in this state. Nearly all churches and denominations are represented and the majority of our people are of the church going moral and intelligent kind, [illegible] bringing up their children to follow paths of honor and rectitude. Gambling and liquor selling is not allowed. Rents and living expenses are moderately low, not so cheap possibly as in Kansas yet reasonable. Lumber yards and building materials within convenient distances of [illegible] to haul it upon. Post offices are also located in convenient [illegible] generally in stores carrying a general and varied stock of merchandise, dry goods clothing boots and shoes groceries and provisions hardware stoves clinaware millinery goods harness wagons lumber paints [illegible] agricultural implements etc. can be bought here at prices better than Denver prices. Not [illegible] the fact that in the whole [illegible] has lost heavily, Morgan county as a whole never was in more prosperous shape than today. The [illegible] never so great, the alfalfa and seeded crop so large, the demand for lumber and building material never so brisk, the sale of farm implements never so good—the sale of the latter has been [illegible]. The water supply has been adequate in most sections and promises [illegible] during the season. Without unforeseen accidents the greatest crop of hay and cereals ever harvested in the county will gladden the hearts of the fortunate farmer and bring prosperity to the door of most of our people. In conclusion the Times thinks Morgan county is all right and probably offers better inducements to either the settler or land buyer than any other county in Colorado. Come look it over; now is a good time to come.

No Provocation to Russia

(New York Tribune)

There has been much too much nonsense of it mischievous uttered about the tariff dispute between the United States and Russia but [illegible] the worst of it all is the insinuation put forward in this country though no one ventures to assume responsibility for it—that the United States is deliberately seeking to provoke a tariff war. It is not for a moment to be supposed that the Russian ambassador or any responsible Russian statesman conceives such an idea or for a moment countenance it. It is more likely to have been furtively hatched by some superserviceable Russophile in this country who thinks he is doing Russia a good turn by maligning his own land or by some irresponsible enemy of the administration who aims merely at discrediting the administration without thinking of the mischief such malicious suggestions might do to the whole country.

The utter falsity of such an insinuation is obvious to every one who has intelligent regard for either particular or general facts. We have already shown that in the matter of the sugar and petroleum duties the United States was guilty of not the slightest offense to Russia. In the sugar case this country simply equalized duties making Russian sugar pay the same rate that German or other sugar pays and in the petroleum case it merely followed Russia's own example by putting upon Russian oil the same tariff which Russia puts upon American oil. As for the general principles involved it is a matter of historic record that the United States has never provoked a tariff war but that on the contrary it has even refrained from retaliation under circumstances of great provocation. It is no vainglorious boasting but a statement of plain fact to say that the United States has consistently practiced under protection the principle of conceding all possible [illegible] to arrogate to free trade.

There is no provocation to Russia in the tariff policy of the United States. We may confidently assume there will be none. But neither will there be any supineness. The United States tariff laws will continue to be made, interpreted and executed at Washington and not at St Petersburg. The United States will continue to give to Russia the most favored nation treatment expecting of course the same in return. More than that it cannot give in justice to itself and to others and more than that Russia surely will not ask.

Those of the Democratic party of Colorado who are in sympathy with the movement for the reorganization of the party [illegible] on national questions would better [illegible] a little of their energy to [illegible] their party here at home. A party that has a clear majority [illegible] the least in [illegible] as the [illegible] certainly [illegible]. It would seem to be [illegible] judgment [illegible] that of the proverbial farmer. The [illegible] It is time for the Democrats of Colorado to find out that it cannot strengthen itself by fostering political infidelity. The fact remains that the best way to strengthen a party is by giving political preferment to its own members rather than by holding out the fatted calf to the prodigals and the disgruntled [illegible].—Monte Vista Reporter.

The Colorado Springs (Daily) Gazette of last Sunday was a great paper ranking in merit with any of the Denver dailies. The enterprise which has been exhibited by the C. S. Gazette lately is to be highly commended and this city is to be congratulated that it has a paper with such push and enterprise back of it.—(Colorado Hard and Fo [illegible] Gazette.

INCENDIARIES BURN BRIDGES

Five Structures on the Rio Grande Line Near Beaver Set Afire by Tramps---Traffic Delayed.

Five wooden bridges on the D[enver] & Rio Grande railroad between Beaver and Swallows on the main line west of Pueblo were badly damaged or destroyed by fire early yesterday morning. The fires were undoubtedly caused by incendiaries as all were started simultaneously. Trainmen ... were in time to prevent any serious ... but traffic was delayed on the line from midnight until 10 30 o clock this morning. Every effort is being made to learn the identity of the incendiaries. The burned bridges were all in the first six miles of the road above Swallows. The first one to be discovered burning was about three miles east of Beaver and passenger train No 1 which arrived at Beaver east bound ... was the first train to be flagged. Conductor Harrington was notified at Beaver to hold his train there until the fire could be put out. The engine was detached from the cars and carried a few railroad men to the scene of the fire. It was then discovered by the reflections cast upon the sky that more bridges were burning. An investigation disclosed the fact that the structures spanning gullies had been set afire. All were damaged or destroyed before the flames could be extinguished. It is believed the fires were started by tramps ... put off a train.

Wrecking crews and section men were summoned from as many places as were convenient and by 10 ... the bridges had been repaired or rebuilt. The following passenger trains were delayed: Nos 1 ... and 2 eastbound and Nos 3 and 15 westbound. No 16 was taken to Florence where the passengers were given breakfast. A number of freight trains were also delayed.

Three tramps were arrested last evening in Florence on suspicion of having been implicated in the fire. They were released later as there was no evidence to hold them.

Midland Is Ready to Bulletin Its Trains

The statement in the Gazette yesterday morning to the effect that an agitation was starting for the purpose of having railroads make announcement to the public of the arrival and departure of trains had a quick response from ... Denver.

Before 10 o clock in the morning the Colorado Midland city ticket office had instructions from the general offices in Denver directing the local representatives of the company to obtain and have on hand for the information of the public definite knowledge as to the arrival and departure of its trains and those of the Colorado & Southern and Santa Fe as well. The officers state that it is their desire to afford the utmost possible facility for the people in using their line and that if their trains are late they have no inclination to keep the fact from the public with the result that people wishing to use their line are inconvenienced. The local representatives of the Midland state that not only will they have information concerning the three roads named but that anyone wanting to know the facts concerning the arrival of the D & R G or the Short Line or any other road doing business in this city can get it from the Midland city office.

It would undoubtedly be an exceedingly popular innovation if all the roads should immediately adopt the same policy and not make necessary the passing of a law to compel it.

Cornerstone Will Be Laid Today

The laying of the cornerstone of the ... Methodist church this afternoon at ... o clock will be attended by representatives from all the churches in the city and probably from several of the Denver churches as well. The new church is on the corner of Boulder and Cascade, right in the heart of the residence part of the city. The work on the church is being pushed very rapidly as the present church building is ... too small to accommodate the increasing congregation.

The program this afternoon is as follows:

The Declaration —

Hymn

Prayer—Rev. F. Evans Carrington

Psalm 122—Read responsively

Anthem

Scripture Lesson—Rev. A. L. Haslett D. D.

Address—Bishop H. W. Warren D. D. LL. D.

Slav and Swede Had Bad Cutting Scrape

A. J. Anderson a Swede who was severely cut during a fight in a cabin ... mile northwest of Roswell Tuesday night was taken to St Francis hospital last evening. He was slashed across the neck and throat and part of his left ear was cut off by his opponent s knife. The assailant escaped.

Anderson and the man who cut him, a Slav, were formerly good friends and worked together in the Curtis coal mines. They had a dispute in the cabin ... an acquaintance about 5 o clock Tuesday evening and the Slav slashed Anderson with a stiletto. The sheriff's office was notified and Deputies Fitts and Alward with Dr Richardson went to the scene of the fight. When they arrived there the Slav had escaped and all the foreigners thereabouts refused to give any information as to where he could be found.

Anderson was not fatally hurt and his wounds were dressed by the doctor. Yesterday afternoon it was decided to take him to the hospital.

Rough Riders Insist On Meeting Here Now

The postponing of the Rough Riders' reunion does not appear to have been very well advertised. A number of the troopers have arrived in the city recently and express their surprise at seeing no comrades on the streets. Dr Donaldson of New York city was among the disappointed ones. The doctor, who was acting assistant surgeon of the regiment, came west anticipating a jolly good time at the reunion and he has determined not to be deprived of the pleasure. He will stay in the city as the guest of Dr Solly until the reunion occurs.

Some Good California Wine

Ninety cents a gallon jug and all. We ve got a wine at 90 cents that we cheerfully and willingly put the Ward label on.

We don t believe you ll find a wine anywhere in Colorado at that price that will compare favorably with this.

It s good drinking wine—it s pleasant to taste and it s got a rich flavor that most low priced wines have not.

No middle man gets a chance to doctor this wine because we buy it direct from California vineyards.

We have this good wine in Port Sherry Muscatel, Angelica and Catawba.

GLOCKNER BENEFIT FETE TONIGHT

Memorable Event Is to Be Held on Lawn of Mr. and Mrs. Louis R. Ehrich's Home.

Upon the spacious beautiful grounds surrounding the residence of Mr and Mrs Louis R. Ehrich 1... North Cascade avenue, this afternoon from 3 until 6 o clock and this evening from 8 until 10 o clock a grand lawn fete will be given in aid of Glockner sanitarium.

Elaborate preparations have been made for the event and great interest is taken in it both on account of the worthiness of the object for which it is given and the superior attractions offered for the amusement by all patrons.

Large as are the grounds the attendance will surely tax their capacity.

Although always delightful the place will be beautified still further by artistic booths within which many prominent society ladies will preside.

A distinct novelty will be the sale of articles of infinite variety so cleverly disguised in the wrapping as to defy all attempts to solve the mystery of their contents. For instance so small an article as a fan or a shoe horn may be concealed in the depths of a silk box, etc.

This cannot but be a source of merriment and curiosity and the management guarantee that in every case the packages will certainly contain articles fully worth the purchase price.

The one dollar and the fifty cent table will be in charge of the Misses Burns, Mrs Frank Peck, Mrs S. H. Baker and Mrs A. H. Whaite. The booth is to be tastefully decorated in the national tri colors, flags and a profusion of red, white and blue flowers.

Over the 25 cent table Mrs H. P. Farnsworth, Mrs J. A. Hayes and Miss Tripp will preside. This booth will be located beneath a clump of lovely apple trees and decked in dainty pink effects.

Mrs Edward Cockrill, Mrs S. S. Bernard and Mrs Baines will be besieged with the children at the 10 cent booth and special bargains have been prepared. Bright tinted Japanese umbrellas and fans with huge bunches of red and yellow flowers will give this booth a barbaric splendor.

A great center of attraction will be the ice cream table where that seasonable commodity will be served by Mrs C. W. Lawrence and a corps of 20 young society women in the most bewitching of summer toilets.

Oh ... there to be plenty of strawberries.

Mrs F. R. Joyce will provide the thirsty ones with delicious lemonade and there is to be an abundance of toothsome home made candy for sale at the booth presided over by Mrs Charles Farnsworth and others.

Mrs Cortlandt F. Palmer will assist the Misses Burns at the bargain table—where prices are $1 or 50 cents per package—and— very cheap at the price.

Besides all this fascinating aggregation in the afternoon the ... will be music furnished by the ever-pleasing Barnes orchestra.

The Midland band will play at the fete during the evening there being no public concert at North park.

Also the very best local talent will assist in the program which is as follows:

Orchestra

Song—Jack s the Boy (Geisha) Jones
Mr George Crampton

Orchestra

Song—Little Orphant Annie Needham
Mrs Philip Stewart

Orchestra

Songs—
Lazily Drowsily ... Coryll
Mignon ... D Hardelot
Mrs George Crampton

Cigarette Song
Soldiers in the Park (Runaway Girl) ... Monckton
Mr Alec Clemens

Orchestra

The evening scene will be a most dazzlingly brilliant one outrivalling all the fairy tales of one s childhood. The Ehrich ... has strung wires among the trees and over the lawn and variously colored electric bulbs will glow like huge lighted fruit making everything brighter than day. All this has been arranged at a ... price by the firm .... The electric current will be supplied through the generosity of the Colorado Springs Electric company.

As a token of their readiness to aid so excellent an object as that represented by the giving of the fete a few friends have ... together and procured the services of the famous Midland band.

The summer ... is the following program of specialties:

Mr and Mrs George Crampton in a costume entertainment. Merrie England. Old English Songs.

Duet—Sweet Nightingale

Song—The Forsaken Maiden

Song—Jan's Courtship

Duet—Blue Muslin

Song—A Sweet Pretty Maiden

Song—Richard of Taunton Deane

Duet—Saucy Sailor

Accompanist—Miss Ehrich

THE ELKS

Specialty ... Bro Clint Draper
Song ... Grant Pauley
Song ... Al Jeancon
Rag Time Medley ... Al Jeancon
Love and Whist —(Operetta in one act)
(Music by Henry Houseley)
Libretto ... Randolph Hartley

Cast

Courtney Fairfax ... Victor Clemence
Captain Aldershot ... George Crampton
Dorothy Sherwood ... Miss Katherine Cordell
Mrs Sherwood ... Miss Higgins
Micron ... Mlle Marie Soulas
At the piano—Mr Bowers

The general admission which includes the musical program is but 50 cents for adults and 25 cents for children so no one can afford to forego the best entertainment of the whole season.

The special committees appointed to arrange for the lawn fete are:

Executive Committee—Mrs Louis R. Ehrich, Mrs Seth Baker, Mrs C. S. Sprague, Mr Grant Bass.

Finance Committee—Mrs D. V. Donaldson, Sister Lo...

Musicians Union Had Election of Officers

After the semi weekly rehearsal of the Midland band last night the Colorado Springs Musicians Protective union held a meeting and perfected its organization. Officers for the first year were elected as follows: President Mr Charles Bogue, vice president Mr W. H. Metz, secretary Mr R. W. Hemenway, treasurer Mr Claudius Tuttle, sergeant at arms Mr William H. Bosworth, examination committee Messrs D. H. Rawley, H. T. Irvine and J. Allard Jeancon. The executive board consists of all the above named officers with the exception of sergeant-at-arms.

A few remarks along the line of the benefits of unions and organizations were made by Messrs Nelson and Drane, the former the chairman of the organization committee and the latter the secretary of the local Trades assembly.

There are at present 39 names on the charter membership list and as it will remain open for 15 days longer there will undoubtedly be many more names before the list is closed.

All worthy efficient and capable instrumental musicians are eligible to membership and may be admitted for the present upon payment of the charter membership fee if recommended by the examination board. Adjournment was made until next Wednesday evening.

GUYOT HILL AGAIN

This Time an Important Strike in the Ross Lease on the Republic Claim---Representative of the American Reduction and Refining Company at Camp.

Special to the Gazette.

Cripple Creek, June 26. A good strike is said to have been made in the Ross lease on the Republic claim of the Mary McKinney company. The lessee has been working for some time on a good ore body in the 250-foot level, and it was just beginning to narrow down into an unprofitable body when it bulged into better proportions than were had before. [illegible] the amount of shipments from the lease considerably increased as a production of only about three or four tons per day has been made for the past few weeks.

McDade & Co., leasing a block of the Pharmacist company's property on Bull hill, sent a carload shipment of medium grade ore today.

Messrs. Tutt, Penrose & McNeill of the American Reduction and Refining Co., are in the camp for a few days on a business trip. Just what the nature of the business is has not yet been divulged, but it is probable that contracts are being made with many of the mines for the treatment of their low grade ores.

In the Anaconda company's main workings in the drift about 166 feet below the tunnel level from the shaft a seven-foot vein, carrying assays of [illegible] three ounces in gold to the ton, has been opened. The vein is supposed to be the extension of the one from which the Cyanide Leasing company, operating block 45 of the Anaconda company, has been making a regular production for some time.

Peter Yost has been granted an 18 months' lease on a south block of the Mountain Daisy company's property on Bull hill. The lessee will commence operations at once in the 50-foot shaft where a good vein is exposed. The vein was exploited for some distance and several tons of sylvanite ore, rich in grade, were encountered, although the proposition was not profitable for shipment. A new shaft will be started about 100 feet south of the old one, the contract of the lease requiring 12 feet of sinking per month.

Allen & Alstead, leasing the main workings of the Pharmacist, will send out a carload of graded ore in a few days. The ore is from the sixth level and averages up to about $45 per ton. No prospecting is being carried on at present in the 250-foot level, where the lessees expected to find the downward extension of the vein cut at the 160-foot depth.

Another lift will be sunk immediately in the shaft of the Walden lease on the August Flower of the Katinka company on Guyot hill. This work will put the shaft down to a depth of 700 feet, where drifts will be run for the ore bodies, which are yielding a great deal of profit in the 600-foot level.

GOLDEN DALE COMPANY WILL REORGANIZE

To Straighten Out the Tangled Affairs of the Company So That Stock Can Be Listed.

Notices to the stockholders of the Golden Dale Mining and Milling company were sent out yesterday calling for a special meeting of the stockholders to be held in the offices of the company in this city. This stockholders' meeting is called for the purpose of ratifying the action taken by the directors in organizing a new company under the laws of Wyoming, which will take the exact place of the old corporation. The new company will have the same number of shares but instead of the par value being $1.00 a share it will be 1 cent a share, in order to cheapen the revenue tax. The new company is to have the same name as the old one and the shareholders are to get share for share. The same amount of stock is to remain in the treasury, and in the same identical conditions are to exist in the new company as in the old, except as to the defects that were found. So the sole object of the new company is to get the Golden Dale in such shape that it will be accepted by the listing committee.

The circular issued by the company is as follows:

A short time ago the governing board of the Colorado Springs Mining Stock exchange determined that all stocks traded in upon the exchange would have to be regularly listed, and to become listed it was necessary for all companies to have their organizations, title to their properties, issuance of stock, etc., examined by the attorneys for the exchange.

In the case of the Golden Dale Mining and Milling company it was found that there were various imperfections and irregularities in its early organization and the issuance of some of its stock, that prevented its listing in its present condition. These matters extend to a date before the present management acquired control of the company, and it is not responsible for them. In order to place the company in good condition, and to make its organization and issuance of stock perfectly regular and lawful, the board has been advised by its attorney that it will be necessary to effect a reorganization. The easiest and cheapest way to do this is by the incorporation of a new company under the laws of the state of Wyoming. Certain of your stockholders, therefore, have organized and incorporated the Golden Dale Mining and Milling company under the laws of the state of Wyoming, and have proposed that, in consideration of the transfer to this Wyoming corporation of all the property of the Colorado corporation, it (the Wyoming corporation) will issue to the Colorado corporation all its capital stock.

GOULD SALE DENIED

Nothing in the Report That a Deal Is on for the Jennie Sample Claim---Officer Talks.

An officer of the Gould company was asked yesterday whether or not there was any foundation for the report current to the effect that an offer had been made for the company's Jennie Sample claim, and also for the controlling interest in the company, at a price much higher than the prevailing market value.

He said in substance: "There is absolutely nothing in the report and the mention of such a deal in the papers was the first information I had had of any such a transaction.

"Some time ago there were certain parties bidding for the Jennie Sample claim, but we never got within gunshot of each other, and the matter was dropped.

"Offers were also made for options on the property, but the company refused to acknowledge them. In fact our property is all good and we don't have to sell and don't want to sell, and have not even put a price on the Jennie Sample or any other portion of our ground.

"The stock of the company was knocked ridiculously low when we lost our vein, but as we never cared to mix up in any market manipulation we said nothing and thought we would simply let people form their own conclusions and ideas as to the value of the stock.

"Things look favorable now according up the old vein again and those interested are now, and always have been, very sanguine. The ore we have now is not extremely good, but screenings run about $120 in gold to the ton.

"There are two shafts on the property, 450 feet and 500 feet deep, respectively, and we are doing considerable development from both.

"The company is now practically out of debt, and the officers are all very well satisfied with the general outlook. It takes two to make a bargain, and they will have to let us know about it if anyone wants to buy our property."

ALAMO HAS GOOD ORE

An officer of the Alamo company recently returned from camp reports the property to be looking extremely encouraging.

The six-foot vein recently opened up on the Little Huckleberry claim, carries two and one-half feet of pay ore, in the center of which is a narrow streak of about three inches which assays from $200 to $400 in gold to the ton.

The company is drifting on this vein which, if it continues in its present direction and proves continuous, will give the company 1,000 feet within its lines. A shipment from this shoot is being saved and will be sent out in a few days.

The Ophelia tunnel is within 100 feet of the supposed extension of this vein and the company proposes to begin drifting at once from the tunnel in the hope of locating the extension, which will be at a depth of 400 feet.

MINING NOTES AROUND TOWN

Last week was the banner week for ore shipments in the history of Idaho Springs, says the Idaho Springs Siftings. Better than 50 cars of ore left this point for the smelters, and if the production continues to increase as it has during the first two weeks, the record will run better than 200 tons.

Another fact to be taken into consideration is the immense amount of mining machinery that has been shipped into the district since the first of the year. The number of tons is several times in excess of the total amount shipped during the entire 12 months of 1900.

CREEDE CAMP SHOWS PROGRESS.

This spring's development work in our various mines has proven that Creede's permanency is well established and that mining in this district is still but in its infancy, says the Creede Candle. The opening up of the big Bachelor mountain vein in the Humphreys tunnel, which is an extension of the Nelson tunnel, where the ore is of immense width and of high grade and then striking it again 100 feet deeper and several thousand feet further south in the Bachelor property below the Nelson tunnel, is sufficient proof that the vein grows wider and richer with depth.

The strike on the McKinzie mountain vein is very gratifying to all who are operating in that district, and the same is true on Campbell mountain. On Mammoth mountain the ore is improving in all the shippers and the properties being developed are making fine showings. Summing it all up, Creede will grow and continue to grow for years to come, and the extraction of untold millions only awaits the pick and drill to be put in motion by the investors.

The Corsair mine, near Creede, is now showing up better than ever before and promises to be a steady shipper for some time to come of from three to four cars per week. The ore body that was struck several weeks ago has been opened up in three different places by raises and shows a uniform width of three and one-half feet, and runs from 75 to 100 ounces in silver per ton.

CASH SELLS SEAT ON THE EXCHANGE.

Official notice was posted on the exchange yesterday stating that Mr. Walter S. Cash, who is a member of the exchange, is retiring in favor of Mr. L. S. Thompson. The consideration for the transfer of the seat is not ascertainable, but it is learned that it is in the neighborhood of $2,000.

RENEWED ACTIVITY IN THE FLORENCE MILLS.

The Doreas Mining, Milling and Development company have closed a contract with Cripple Creek mine owners for all the ore it can treat at its mill here, which is 100 tons per day. The arrangement is to go into effect July 1. The mill has not been working to its full capacity, but with the new arrangement, 50 men will shortly be set to work. It is said the contract is made for a year.

The Doreas company, through its Cripple Creek agent, Colonel Ed. F. Browne, has been offering to treat Cripple Creek ores at from $1 to $10 less than the prices of the smelter combine. It is stated that this mill can treat ore at prices based on a $5 treatment for ore up to one ounce with profit. It is working independent of either the mill or smelting combination and proposes to stay on the market.

The statement was given out yesterday that the management of the Cripple Creek Beam mill has purchased mines in the Cripple Creek district and from now on will have all the ore it can treat. The mill has resumed operations after a year of idleness. The process used is said to be working admirably. Thirty men are employed and others will be put to work as soon as the contemplated improvements have been made.

The contract for placing the two additional furnaces at the Rocky Mountain smelter has been awarded to W. J. Ridle, who will at once commence the work. This will give the plant four furnaces of 250 tons capacity each. Other improvements are also outlined which will commence shortly.

PHONOLITE DIKE CUT ON BOSTWICK PROPERTY.

The president of the Bostwick Gold Mining company stated this morning that a large phonolite dike had recently been encountered on the Bostwick property, and the company is getting things in readiness to sink and drift on the property in the hope of opening up something good.

What is supposedly the same shoot has given excellent values in Bonnie properties and though the rock just opened in the Bostwick workings is low grade stuff it is altogether probable that it will lead to something better.

The Bostwick company's property lies contiguous to the Elkton on Raven hill and is very valuable ground.

BROKERS LIABLE TO SPECIAL REVENUE TAX.

There has been some discussion among the mining brokers as to whether they are liable to a revenue bill. In order to settle the matter Mr. W. P. Kinney, secretary of the exchange, wrote the revenue collector in Denver for his opinion upon the subject. The following is a copy of the reply from Mr. Howbert, the collector:

W. P. Kinney, Secretary Colorado Springs Stock Exchange—Dear Sir: Answering yours of the 21th inst., have to inform you that broker's special tax has not been repealed. I send you under seperate cover about 100 forms, No. 11.

Yours truly,
F. W. Howbert,
Collector.
F. H. Chaffin,
Chief Deputy.

RICH ORE FROM THE FANNY RAWLINGS LEASE.

Official returns have been obtained upon a very rich shipment of ore which left the Fanny Rawlings company's property at Leadville some weeks ago. The lot is designated as No. 2, and weighed 6,760 pounds or nearly three and one-half tons. This ore averaged nearly $1,000 per ton, the values being distributed as follows: Gold, 15 ounces; silver, 41 ounces; lead, 24 per cent. The exact value was $962.15 per ton. The shipment was made by the South Winnie Co., lessees.

Hardly a day passes, in families where there are children, in which Ballard's Snow Liniment is not needed. It quickly cures cuts, wounds, bruises, burns and scalds. Price, 25 and 50 cents. Holley-Arcularius Drug Co., 21 South Tejon street.

STRATTON SAYS NO

A man with the wealth of W. S. Stratton and one who has been such a heavy buyer of Cripple Creek mining property, is naturally urged to purchase very much more than he wants and is credited with consummating a good many deals that he never thought of.

During the past few days a rumor has been persistently going the rounds that Mr. Stratton was negotiating for or had purchased the Free Coinage group of claims on Bull hill. The proprietors are just close enough in touch with Mr. Stratton to know that the story sound reasonable, but as a matter of fact there is not a word of truth in it.

Mr. Stratton was seen by a representative of the Gazette yesterday in reference to the matter and denied that any deal was on or that he was contemplating purchasing the Free Coinage property. "I wish you would put it as decidedly and strongly as you can," said he, "I am not putting any more money out for Cripple Creek property as I have so much already. I am not buying the Free Coinage group and have not contemplated doing so. There is absolutely nothing in it."

The Free Coinage group is immediately east of the Burns claim, belonging to the Acacia company. Part of the town of Altman is built upon the group and it has the reputation of being the highest incorporated town in the United States. The present owners are Sam Strong and Hunter & Trimble, the two latter being large owners in the Leadville bonanza, the Little Jonny. It is understood to be a good mining proposition, but the ex-owner of the Independence mine does not want it at half a million dollars.

$600,000 REFUSED

A week or so ago John H. Hobbs, of the firm of Edsall, Key & company of this city, made the trip to New York. Nobody knew what he went there for exactly, his friends said for pleasure. But as a matter of fact he had a big deal up his sleeve—that is 720,000 shares of Doctor-Jack Pot stock for sale.

Mr. Hobbs was almost successful in his undertaking and went so far as to gather around him a syndicate willing to buy the stock and pay $600,000 cash for the same. With this part of the deal consummated it looked as if the deal was a go. But at the last moment it failed.

The bid was made for the big block of stock and was equal to about 85 cents per share or about 15 cents per share better than the present market. But the offer was turned down and the deal was off.

The block of stock which it was sought to negotiate was that owned by Messrs. Josiah Winchester and Archie Stevenson who secured the best part of it for their lease on the Doctor when the Doctor-Jack Pot consolidation was recently made. It now develops that Mr. Stevenson's interest in this stock is comparatively small and nothing like what was reported when the distribution was first made. The block is now tied up by injunction and rumor has it that Stevenson's share will be still less before the litigation is ended.

WOODS STICK TO CRIPPLE

The newspapers of the state have been busy copying a story from each other about an alleged deal for a copper mine in Wyoming. The story is to the effect that the Woods Investment company of Victor have purchased the Whitman mine in the Horse Creek district for $15,000.

As the Woods Investment company have practically all their interests concentrated in the Cripple Creek district the statement had, in the first place, an untrue ring but its truth or falsity was soon settled by conversation with Mr. H. E. Woods on the phone.

"We have not bought the property," said he, "either individually or as a company. Every once in a while such stories come out but we are well satisfied with Cripple Creek and any investments we make will go into this camp."

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, June 27.—The market upon the exchange opened in an unchanged manner, the trading for the call was somewhat featureless. Trading was just about the same as it was on the previous call, with the prices unchanged in many of the stocks and in some a decline was scored. In the mines Doctor-Jack Pot was 73, Pointer 10½ and Portland was firm at $3.10.

In the prospects, Bonnie Nell sold at 8 cents, which was ¾ of a cent above the last sale. Cripple Creek-Columbia was a fair trader at 23¾. Eclipse was 15⅛, while Mollie Dwyre held at 6¾. The balance of the prospects were disposed of in a short time. In the unclassified stocks Acacia was 14. Gould held strong at 20, upon the report of excellent showings in the workings on the property. National was 4¾. Sedan sold on this board for 9, while, in order to settle a wager on the Cripple Creek exchange, it sold there for 16 cents.

The market upon the afternoon call was better in point of trading than on the first call. The waiting attitude of the market seems to be near an end. In the mines Butterfly-Terrible showed considerable strength under the attempt of the bears to hammer the stock down. It opened at 38¾, seller 30, and at the close of the call it [illegible] 40 under good trading. Doctor Jack Pot fired, further decline by selling down to 71½, seller 30. The sensation of the call was the trading in Golden Cycle. H. A. Young sold to Tucker, Ballard & Co. 50,000 shares at 60 cents a share, the total consideration being $30,000. Vindicator showed strength at $1.22. Bonnie Nell made a further gain and closed at 8½ seller 30. Mollie Dwyre went off to 5⅞ and Gould sold off a half cent at 19½. The rest of the trading was featureless.

The total amount of the sales for the day was 397,878, for which the cash value was $79,579. This is an increase in the cash value.

EASTERN MARKETS

New York, June 26.—The sentiment reflected by the changes in stock prices underwent a surprising number of mutations today, considering the small volume of the trading and the narrowness of the interest in the market.

The market was palpably soft notwithstanding these occasional variations. There was a residue of apprehension caused by yesterday's banking disturbances, in spite of the clearing up of many wild rumors that were circulated yesterday by the explicit statements put out over night. It was doubtless owing to this feeling of uneasiness that strong supporting orders were put in the market at the opening to guard against any violent disturbance of prices.

The advances which were caused in that way were, in fact, met by considerable selling orders by the element which professed to expect further trouble. The persistence of the support and the news that the bank which was affected yesterday had met today's debit balance at the clearing house quieted the slight tendency to feverishness in the market. Afterwards the trading took on the tone of the recent market and consideration returned to the situation of the money market.

The fact that the clearing house association had considered it unnecessary to accord assistance to the bank in trouble yesterday was regarded in itself reassuring, as indicating a belief that the bank's affairs offered no threat to the money situation and that the trouble was localized. With the development of this sentiment the support of the market seemed to be less as though it were not deemed necessary.

When the money rate stiffened to above 6 per cent, and increased offerings came upon the market, prices therefore yielded easily. This period of greatest weakness in the market was also that of the greatest activity. The flurry in money rates was exactly what has been anticipated for two weeks past and what is a usual incident of the last week in June on account of the large accumulations necessary to provide for dividend and interest disbursements.

Stock speculators, however, are not prone to ignore this periodical tendency and to persist in an optimistic spirit in the hope of money market relief.

This week the hope has hinged on the probability of the repayment to the market of some very large borrowings by syndicates and railroad companies. The decline in prices was most pronounced in St. Paul, Union Pacific, Manhattan and some of the less prominent stocks which have been under manipulation recently for an advance. St. Paul closed 2¾ under last night. The latter part of the day was taken up by a very general but desultory recovery. Not a few of the most important stocks were lifted well above last night's level while the larger number rallied to that level. The close was dull but firm.

The bond market was dull but prices yielded to selling in sympathy with stocks. Total sales $2,225,000.

U. S. refunding 2s advanced ¼ in bid price.

The London Market.

New York, June 26.—Commercial-Advertiser's London financial cablegram: The stock market today was stagnant except for settlement arrangements. Quotations were again lower with Berlin still a free seller following the recent bank failures in Germany. These failures largely the result of over financing industrial issues, particularly electric stocks caused a flatness in copper on a restriction in the demand for the metal. Berlin offered Americans freely and as London was not buying, prices generally crumbled away from a lack of support.

Money was in demand with call and future rates at 3 per cent.

New York Money.

New York, June 26.—Money on call firm at 4½@5 per cent.; last loan and ruling rate, 6 per cent. Prime mercantile paper, 3¾@4½ per cent.

Sterling exchange weak with actual business in bankers' bills at $4.87¾@4.87⅞ for demand and at $4.85¼@4.85½ for 60 days. Posted rates, $4.85@4.86½ and $4.88½@4.89. Commercial bills, $4.84½@4.85¼.

Silver certificates, 60c. Bar silver, 59⅜c. Mexican dollars, 47¾c.

Bonds—Governments strong; state inactive; railroads easier.

The Metal Market.

New York, June 26.—General conditions in metal circles both at New York and London varied little from a speculative standpoint today. Tin ruled quiet and without change all day in London, closed with spot quoted at £120 and futures at £124, while a loss of 10 points took place here under a sheer absence of support, closing the market easy in tone at $28.35@28.45. Futures neglected, copper in London declining 10s owing to an increase in available stocks and a weak undertone prevailed all day with the final phase of the market steady; spot at £67, 17s, 6d, and futures at £68, 7s, 6d. Locally copper was neglected and nominally unchanged. Lead was featureless and unchanged. Spelter dull at old prices, $3.92½@3.97½, while in London prices fell off 5s to £16, 17s, 6d for spot. Domestic iron markets ruled dull but was steady at unchanged prices. Pig iron warrants, $9.50@10; northern foundry, $15.25@15.50; southern foundry, $13.75@15.25, and soft southern, $13.75@15.25.

Chicago Grain and Provisions.

Chicago, June 26.—Wheat opened quiet and a shade higher on cables. The trading was nearly all on local account. September opened ¼@⅜c higher at 65¾c, but dropped to 65½ soon after the opening. Toward the close the market rallied on active buying by shorts, at one time the price being 66⅞@67c. The close was firm and ⅜@½c higher at 66⅞c. Seaboard reported 21 boatloads taken for export, and clearances of wheat and flour were equal to 514,461 bushels. Primary receipts were 403,000 bushels, against 432,000 last week and 427,000 a year ago. Minneapolis and Duluth reported 453 cars received compared with 262 a week ago and 244 cars last year. Local receipts were 29 cars, one contract.

The opening in corn was firm on higher cables but before the session was far advanced a weakness developed, caused by selling on orders for outside account. September sold between 44⅝c and 45, closing ⅛c higher at 44⅞@45c.

There was a fair trade in oats, and the opening was steady and a shade higher than yesterday's close.

Toward the close the market became firmer in sympathy with wheat and the close was firm and ⅛@¼c higher for September, the latter market closing at 28¼@27c, after selling between 26⅝c and 27c. Clearances were 27,706 bushels and the local receipts were 88 cars.

Provisions were dull and there was an almost complete absence of buying orders. September pork ranged between $14.62½ and $14.90, closing at $14.82½@14.85, 7½@10c lower than yesterday.

Lard sold between $8.72½ and $8.77½; closing 5c lower at $8.75; ribs ranged between $8.12½@8.15 and $8.15@8.17½, closing 5c lower at $8.15.

Estimated receipts for tomorrow: Wheat 45; corn 150; oats 105; hogs 30,000 head.

The leading futures ranged as follows:

A TRYING POSITION.

Colorado Springs Readers Will Appreciate this Advice.

A constant itching tries your patience. Nothing so annoying. Nothing so irritating.

As itching piles or eczema.

To scratch the irritation makes it worse.

To leave it alone means misery.

Some citizens can tell you how to be free from these troubles. Read the following:

Mr. E. L. Griswold, of 516 East Huerfano street, says: "I had occasion to use Doan's Ointment. Before I went to Jones & Wellington's drug store for it I had used everything that heretofore came to my notice; had been treated by doctors, but the trouble was not even checked, let alone cured. Doan's Ointment did as promised. It is worth many times its cost."

FOURTH SEASON.

Opening of the Great Colorado Chautauqua at Boulder.

On July 4, the Colorado Chautauqua, which has its beautiful home at Boulder, will begin its fourth season under most favorable auspices. The grounds have this year been greatly beautified and a great many additional and attractive cottages have been erected. It is really marvelous the rapid strides that have been made by this young giant during the past two years.

There is not in the entire state a more attractive spot for a summer outing than the Chautauqua grounds, and many people are attracted there particularly because of the splendid location, the attractive scenery and the air of refinement and culture which pervades the place, and the fact that it is not an expensive resort.

This year the program is going to be stronger than ever and some of the most eloquent orators, the most eminent divines, the greatest educators and musicians of the country have been engaged, while the summer school feature is to be made stronger than ever. The dining hall will be in charge of a first-class caterer but the rate for board will not be more than it is necessary to charge to cover the service given.

If you have not already visited the Chautauqua you should by all means do so this year.

Any agent of the Colorado & Southern railway will gladly give you more detailed information as to the program and accommodations on the grounds and will tell you about the railroad rates, or you may write T. E. Fisher, general passenger agent, Denver, Colo.

"Persons having normal vision will be able to read this print at a distance of 14 inches from the eyes with ease and comfort; also will be able to read it with each eye separately. If unable to do so your eyes are defective and should have immediate attention. When the eyes become tired from reading or sewing, or if the letters look blurred and run together, it is a sure indication that glasses are needed. The lenses sold in the cheap goods are of unequal density and have imperfectly formed surfaces. Continued use of these poorer lenses will result in positive injury from the constant strain upon the muscles of accommodation to supply the defects in the glass."

He was so bad that Hemphill felt compelled to observe that he was several things that look bad in print. As he [illegible] sitting silent and glum Hemphill's remarks were plainly heard and a police officer started to arrest him for disorderly conduct. The officer pulled him off the coaching line. Holland and others interfered and he was allowed to continue the game. The story of the first round started with Hulen's long drive. Hernon attempted a sacrifice but Clark fell down in fielding the ball. He threw it while lying on the ground and it went [illegible] at the fence. Hernon scoring [illegible] Hemphill [illegible] third. Hemphill [illegible] Crooks [illegible] the old fellow [illegible] and Hemphill escaped.

Holland was passed and Hernon was forced [illegible] a long single clearing the bases and then [illegible] saw Crooks make a [illegible] Hemphill [illegible] Hulen [illegible] the second time [illegible]. The tenth man made the first out and the next two [illegible] Caston was left on third [illegible] yesterday's game and he is sick at the club [illegible]. The [illegible] covered the [illegible]

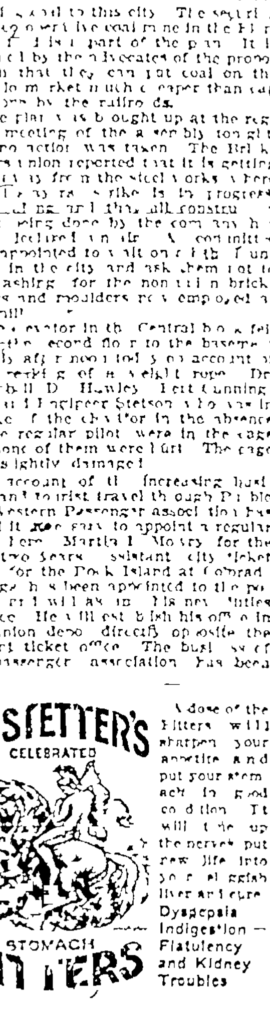
What S. S. S. Does for Children



Children are constantly exposed to all sorts of diseases. The air they breathe is filled with germs, sewer gas and dust from the filthy streets are inhaled into the lungs and taken into the blood. At the crowded school rooms and other public places they come in contact almost daily with others recovering from or in the first stages of contagious diseases. You can't quarantine against the balance of the world, and the best you can do is to keep their blood in good condition, and thus prevent or at least mitigate the disease. You have perhaps learned from observation or experience that healthy, robust children (and this means, of course, children whose blood is pure) are not nearly so liable to contract diseases peculiar to them, and when they do it is generally in a mild form. On the other hand weak, emaciated and sickly ones seem to catch every disease that comes along. This is because their blood is lacking in all the elements necessary to sustain and build up the body. Poisons of every description accumulate in the system because the polluted and sluggish blood is unable to perform its proper functions.

Such children need a blood purifier and tonic to give strength and vitality to their blood, and S. S. S., being a purely vegetable remedy, makes it the safest and best for the delicate constitutions of children. S. S. S. is not only a perfect blood medicine, but is pre-eminently the tonic for children. It increases their appetites and strengthens the digestion and assimilation of food. If your children have any hereditary or acquired taint in their blood give them S. S. S. and write to our physicians for any information or advice wanted; this will cost you nothing, and will start the little weaklings on the road to recovery. Book on Blood and Skin Diseases free.

FIGHTS AND ACCIDENTS

Mar the Sport at the Overland Park

JOCKEYS AND HORSES HURT

Police Use Their Clubs on a Horseman and a Riot Is Narrowly Averted

Special to the Gazette.

Denver, June 26.—The clean [illegible] of today's events at Overland track was greatly marred by a fight and three accidents which happened in rapid succession. As R. Q. Ban [illegible] was [illegible] the judges' stand after having won the six furlong race she became unmanageable and [illegible] against [illegible] the right flank. While the [illegible] track for a few days [illegible] succeeded in having first money in one of the hardest fought races on the track this year and when the accident happened a murmur [illegible] went through the crowd.

As the horses were passing the three quarter pole in the five furlong race Miss Bell, ridden by Price, stumbled and fell. The accident threw Crowley and Wright who were up on mounts just behind her. The two were [illegible] unconscious by the fall and suffered a number of severe bruises. Wright was terribly shaken up while Crowley escaped with light injuries. Neither horse was injured.

Just previous to this race and while the horses were being led to the track, J. C. Williams, one of the owners of horses at the track, started through the gate with his horse which was to be entered in the next race. [illegible] Hughes attempted to stop him but Williams kept going. He [illegible] Hughes lost him terrible blow above the eye with a billy. Williams [illegible] the effects of the blow and the [illegible] pointed a [illegible] between the [illegible] eyes that made [illegible] for the next [illegible]. Other officers [illegible] Hughes' assistance while horsemen crowded around to help Williams [illegible] it looked as though serious trouble might result.

Cooler heads prevailed, however, [illegible] Williams was released [illegible] declaring that he [illegible] appear at [illegible] court in the morning. The officer [illegible] he had orders to prevent all persons from going through the gate and that he did not know that Williams owned the horse. Williams contends that no [illegible] stopped him before. At any rate the sympathy of the crowd was with Williams [illegible] freely expressed that the officer acted entirely too hastily with his club.

The races [illegible] were patronized by the [illegible] attendance [illegible] on the grounds [illegible] the crowds are [illegible].

[illegible] program of the season [illegible] Morton, a California starter [illegible] in the box today and [illegible] that [illegible] the other starter at any time.

In the [illegible] race Martha B. owned by J. A. Beecher attempted to make a gallant fight for first money [illegible] Stratton, who was the favorite. In the first heat Martha B. led the half in the [illegible] time of [illegible] but the [illegible] was too fast and she dropped back to third place at the wire. From that time on she was completely whipped and only got sixth place in the next two heats. Winifred Stratton captured the first place in every heat with ease. The betting was all on Martha B. for second place and it is thought she could have won that money had she not been pushed in the first half. As it was she lost and also those who placed their money on her.

In the first heat of the [illegible] trot Almeta surprised every one and [illegible] first. The rest of the race was all in [illegible] Jefferson's favor with Dr. Storb [illegible] second.

The two year old four furlongs [illegible] Lockie [illegible] Lone Q. was the favorite [illegible] with Yampa [illegible] When the wire was reached Weldon came in [illegible] feet in the lead, Yampa second and [illegible] Q. was [illegible].

The best race of the afternoon was the seven furlongs [illegible] with [illegible] as Nearest [illegible] and M. Albert [illegible]. The betting opened at [illegible] on Nearest and [illegible] to [illegible] her chum with McAlbert. The race was a fight from start to finish and [illegible] six feet ahead [illegible] at the wire.

The fifth race was won by R. Q. Ban, one half lead [illegible] second. It was [illegible] the [illegible] Q. [illegible] was injured. The [illegible] full of excitement and three riders [illegible] at the three quarter pole. Dan [illegible] won with Threela [illegible] and [illegible] third.

In the [illegible] Joe Bell [illegible] the [illegible] started [illegible] the [illegible] Weed [illegible] fought hard for [illegible] and [illegible] captured the prize. The following are the summaries:

YOUNG CORBETT KNOCKED OUT GARDNER

Denver, June 26.—Young Corbett of Denver knocked out Oscar Gardner in the sixth round of what was to have been a [illegible] round go before the Denver Wheel club. Gardner went down in the sixth from a right swing on the jaw. This blow was struck when Gardner's arms hung at his side, he apparently having grown tired. He remained on the mat eight seconds and Corbett quickly put him down again as he got to his feet. Gardner rose gamely each time and attempted to renew the battle. He was put down three times more and was all but out when the police stepped in and stopped the fight. Gardner was lifted to his feet and carried to his corner where he fell in a heap.

Corbett was the aggressor throughout the fight. [illegible] were wild at times and Gardner's showing was not up to expectations. In the preliminaries Abe Attell and Jockey Bozeman, both of Frisco, fought three fast [illegible]

NEWS NOTES FROM PUEBLO

Proposed System of Traction Engines to Florence.

A BIG PASSENGER BUSINESS

Son of Influential Man Under Arrest—Internal Revenue Investigation of Blind Pigs

Pueblo Bureau
Colorado Springs Gazette.

Pueblo, June 26.—The Central Trades and Labor [illegible] is discussing a project [illegible] system of traction engines between Pueblo and Florence and [illegible] to this city. The security of [illegible] coal mine in the Florence [illegible] part of the plan. It is claimed by the advocates of the proposition that they can put coal on the Pueblo market much cheaper than can be done by the railroads.

The plan was brought up at the regular meeting of the assembly tonight [illegible] no action was taken. The Bricklayers' union reported that it is getting [illegible] from the steel works where [illegible] strike is in progress [illegible] all construction work being done by the company has been declared unfair. A committee was appointed to wait on [illegible] the foundries in the city and ask them not to [illegible] asking for the non-union bricklayers and moulders now employed at the mill.

The elevator in the Central block fell from the second floor to the basement shortly after noon today on account of the breaking of a weight rope. Dr. Corbell, D. Hawley, Bert Cunning[ham] [illegible] Engineer Stetson, who was in charge of the elevator in the absence of the regular pilot, were in the cage, but none of them were hurt. The cage was slightly damaged.

On account of the increasing business and tourist travel through Pueblo the Western Passenger association has found it necessary to appoint a regular agent here. Martin I. Mosey, for the past two years assistant city ticket agent for the Rock Island at Colorado Springs, has been appointed to the position and will assume his new duties at once. He will establish his office in the union depot directly opposite the present ticket office. The business of the passenger association has been handled heretofore by William Young, depot ticket agent.

John D. Hughes, son of the famous Tom Hughes, editor of the Albuquerque, N. M., Citizen, and one of the most influential men in New Mexico territory, is under arrest in Pueblo on a charge of stealing $7 in money and [illegible] John Nelson, a dish washer at the Grand hotel. Young Hughes was also employed as a dish washer and roomed with Nelson. It is thought that he ran away [illegible] Dem[illegible] out to see the world. His father will arrive in the city tomorrow to look after him.

Funeral services of William T. [illegible] the aged man who committed suicide [illegible] held this [illegible] the home of the son [illegible] H. Tietsort, at 1043 Cedar street.

A revenue agent of the internal revenue department is said to be in the city for the purpose of investigating rumors of violations of the revenue laws with regard to the sale of liquor by proprietors of hotels and boarding houses in Bessemer. Under the city laws no liquors can be sold in the Eighth ward, but it is claimed that [illegible] are[illegible].

Sheriff Lenhan left last night for McCook, Neb., to bring back M. [illegible], an Austrian who formerly kept a saloon in the Grove. [illegible] Austrian is said to have secured $[illegible] from George Jacobs on a [illegible] cashed checks for his customers and then skipped out.

The Mesa Methodist church has purchased from the heirs of [illegible] estate the vacant lot on the southeast corner of South Union [illegible] and is [illegible] preparing to build a new house of worship.

It was reported to the Pueblo police tonight that Couch, who is alleged to have [illegible] the name of Charles J. Moore, and is wanted at Cripple Creek, has been seen around the Southern hotel in this city. Half a dozen officers are searching for him but up to midnight their efforts had been fruitless.

They are sold everyplace—the CAMPANELLA CIGAR.

ARRESTED ON SUSPICION, HAD TOO MUCH MONEY

Early yesterday afternoon a man named Dan Campbell called at the office of J. H. Dinnington and on departing, according to the statement of the latter, took with him $5 which didn't belong to him. A warrant was taken out and Campbell was arrested on suspicion. Frank Goody, James Robinson and Joe Hardin were arrested during the day for drunkenness and William Jackson was arraigned for driving a scavenger wagon without a license.

CAMPANELLA CIGARS are the best.

K. R. BABBITT DOWN WITH APPENDICITIS

STRIKERS FIRE ON NON UNION MEN

Mattewan, W. Va., June 26.—When the non-union men [illegible] attempted to go to work at the Mat[illegible] mines this morning they were fired upon by the strikers. The non-union men deemed it best to withdraw [illegible] before any of their number [illegible]. Tomorrow another battle is imminent between the strikers and the federal authorities. Ever since the [illegible] Jeff[illegible] non-union men have been preparing for an emergency [illegible] Tell[illegible] Lumber [illegible] the Mat[illegible] expected to arrive from Charleston. It is said they are heavily reinforced and ready to put an end to all the [illegible] in this section. The union men are equally determined. Bloodshed is feared.

COTOPAXI STONE FOR COURT HOUSE

Commissioners Stick to Original Plans and Will Fine Contractors for Delay.

The county commissioners yesterday determined to complete the stone work of the new court house with the same kind of [illegible] original [illegible] some of which has already been used in the walls. The commissioners came to this decision after visiting the quarries near [illegible] and receiving the assurances of the Kerr Stone company that there will be no further delay in shipping the material. The officials say they are satisfied that the Cotopaxi stone is all right notwithstanding [illegible] of the material which was put in the building over a month ago.

In connection with the [illegible] the [illegible] have also determined to hold Cree & Sons to their contract which specifies a fine of $25 for each day the stone work is not completed after July 1. As it will be impossible for the contractors to finish the job for at least a month more the contract for the stone work amounts to $[illegible]. The contractors have been purchasing the stone from the Kerr quarries at the suggestion of the [illegible] for the month's delay in the work caused by the discovery that the stone which had been blasted out of the quarries was defective.

Commissioners Dolan and Feirall, Mr. Kerr, Mr. Gr[illegible] and A. J. Smith, architects for the building, returned yesterday afternoon from a visit to the quarries. The commissioners [illegible] Mr. Kerr [illegible] that by Saturday a shipment of the best stone would [illegible] stone here now [illegible] it cannot be used until blocks of a certain size can be obtained.

The stone [illegible] the walls of the court house is still stained [illegible] dampness [illegible] The commissioners say that [illegible] satisfied the latter will be all right from now on.

Horse Thief Was Brought to Time

The police yesterday made another quick catch. Word was received that a horse thief named Bert Hatfield was wanted in Peyton for stealing a horse from a ranchman, Mr. Sands. The horse got away from Sands on his way to this city and was recovered by a ranchman who at once notified his neighbors. Hatfield approached and claimed the horse, bringing his wife along as a witness. The horse was given over and shortly after Sands, who had heard of the affair, went to recover his horse. The result was that Hatfield was sought for and followed to this city. He was turned over to Constable Carson and taken back to Peyton last evening.

Mrs. Albin Was Hurt in Runaway

Mrs. Albin was seriously injured yesterday morning in a runaway near the Denver and Rio Grande depot.

Mrs. Albin, who lives on a ranch about 15 miles from the city, had been visiting her son at his home, 409 East Vermijo street, and was on the way to the station to take a train home when the accident occurred. She was accompanied by her son and two others, all of whom were riding in the wagon on which Mrs. Albin's trunk was loaded. As Mr. Albin was lifting the trunk out the strap broke and he fell, frightening the team. The horses ran against a telegraph pole, throwing Mrs. Albin to the ground and causing a compound fracture of one rib. It is feared she also sustained some internal injuries, but last evening she was resting easy at the home of her son and the doctors hope for her recovery.

Continuation of our
Round-up Sale of Women's Suits.
Sort of house cleaning you might say a gathering of our immense stock of women's tailor made suits and pricing them for sudden clearance at
Thirty-Three and One-Third Per cent. Discount.
Despite the rapid selling of the past two weeks a good assortment still remains an object lesson, as it were, of the magnitude of our immense spring stock. That the assortment is lower and the styles not so numerous is true, but that is no drawback, the big concessions in price easily overcome that.

Brilliantine Skirts
Separate skirts reach the zenith of popularity this season, along with the shirt waist.
Here is a timely notice of a lot of brilliantine skirts in blue, black, white and grey effects that will add pleasure to the shirt waist fad.

Walking Skirts & Suits
